Yes. TN is in town today for the company meeting and onboarding to SAP for the rest of the week.

I assume that you want all deals in the pipe regardless whether they are SF or not? Do you want standalone closed deals in Q1?

Regards,

Stephen Tseng

Rohit, Michael

We need to get the latest update on the safe passage pipe and deal data. We can use the report that heather assembled last time. What I would ask is that we then list the deals where we closed recently or are close to closure as almost a 'top 20' list.

Steve,

Can you please work with TN to assemble their pipe data in a presentable format.

I need this by tomorrow first am.

Greg,

I think you get the picture. I'd like to talk PIPE, specific deals, and next steps for Q1 closure-reference.

Please advise.

Retek deal is in danger and I'm really pissed...we need to inflict some pain on oracle. Is there a chance to close a few TN deals in the next coming days, at extraordinary conditions?

Warm regards

Léo
